African American Railroad Porters

"The arrival of the transcontinental in Portland in 1883 attracted African Americans to the city, who took jobs as porters and dining-car waiters. When the Portland Hotel opened in 1890, African Americans were recruited from southern states to work in service jobs in the hotel. Between 1880 and 1890, the African American population in Oregon increased from 487 to 1,186."

First listen or read about the experiences of 5-10 African American Railroad Porters.

Oregon African American Railroad Porters Oral History Collection - Special Collections & Archives Research Center, Oregon State University Libraries

<http://scarc.library.oregonstate.edu/oh29/interviews.html>

Then answer the following questions in a short essay: According to the interviews, what was life like in the late 19th century/early 20th century in Oregon? Where had many African American porters migrated from, according to the short biographies? How did African American porters preserve in difficult situations? What advice do the interviewee's give during the interviews? Why are these interviews crucial to understanding life in late 19th/early 20th century Oregon?
